

Queen of Peace Center Registered Nurse

As a member of the federation of Catholic Charities of St. Louis, Queen of Peace Center (QOPC) has provided family-centered behavioral healthcare for women with substance use disorders, co-occurring disorders and trauma and their children and families. Our 40 years of expert care coupled with the dedication of our associates has established for us a solid reputation as a compassionate and progressive model treating uninsured or underinsured clients.

Currently, we are searching for a full-time RN dedicated to the calling of our Mission to serve vulnerable populations at our Central West End location.

Responsibilities:

- Assess and develop treatment plans in collaboration with other health providers
- Care for 16 adult residential inpatient clients (and children) and provide metabolic screening for outpatient clients
- Focus on education, disease prevention, medical screening and medication management
- Contribute ideas and gifts to foster improvement in patient care and establish a state of the art trauma –informed organization (5 year goal)

Requirements:

- RN with active license required; BSN preferred
- Experience and/or interest in substance use prevention and treatment
- Comfortable exercising independent medical judgement while working with a tight knit group of compassionate, gifted and committed providers

Interested candidates should send cover letter and resume to Amber Simpson at asimpson@ccstl.org
